

Welcome Baby!

Skagit Pediatrics is happy to welcome you to our clinic.
We want to be sure you have continuous health coverage
during this very important time!

Please begin the process of signing up
your new little one on your medical insurance.

Your new baby may be covered on Mom's insurance for the
first 21 to 28 days, but after that time most insurance companies
expect to have newborn information, and begin the process
of getting baby their own insurance identification.

If you have medical insurance through Mom or Dad's work
please contact your HR department and begin the enrollment process.

If you have medical insurance through Apple Health/Provider One
please call 1-800-562-3022.

Expect to wait on hold for a bit, but a representative can activate
your baby's coverage to their date of birth.

If you would rather visit WashingtonHealthPlanFinder.com,
please be sure to "report a change" and let them know you
have "unpaid medical claims" to be sure baby's coverage will begin
at his/her birthday.

Call the billing department if you have questions @ 360-542-1354

Congratulations!!
